Bulbs and Roots For Spring Planting

Dahlias, Gladioli, Cannas, Iris, Phlox, Lilies, Peonies and Perennial Plants

JOSEPH F. DONNELLY

129 South 18th Street

This spring we are making an offering of the finest field-grown clumps of Perennial Plants and Bulbs. They cover a wide range of colors, and the blooming season may be extended from the earliest of spring flowers until the frost stops all blooming in the late fall. Varieties may be selected for their cutting quality, thereby having flowers in the home all season.

They are guaranteed to be true to name, and to reach you in good condition. If for any reason they should not be, in your opinion, as represented you may have that part of the order which you are not pleased with refilled, or the purchase price refunded.

All the requirements for the garden can be secured, although not listed.

**Personal Supervision—Always.**

**HARDY PERENNIAL PLANTS**

These can be used to best advantage in groups and beds on the lawn, as borders for drives, walks or in front of shrubbery and in garden. Some of the taller growing sorts may be planted in among the shrubbery with good effect. Most of the perennials can be planted in spring or fall. The soil should be kept well fertilized.

**Anemone Japonica** (Japanese Windflower). The color is a pure white. They grow 2 to 3 feet tall and bloom from August until frost.

**Aquilegia (Columbine).** Long-spurred hybrid. The flowers range through all shades from pure white and yellow to deep blue. They grow about 3 feet tall and bloom in June.

**Hardy Asters.** Are very showy, giving a wide range of colors, blooming September and October. They grow to a height of 3 or 4 feet.

**Achillea—Bole de Neige.** The blooms are white and are on display all summer. Grows about 2 feet tall.

**Campanulas, Medium** (Canterbury Bells). Mixed colors only.

**Coreopsis.** The blooms are a pleasing yellow. Blooms all summer until frost. Makes a good cutting variety.

**Hardy Chrysanthemums.** In mixed colors. The blooms come at a time when blooms are needed most.

**Delphinium, Belladonna** (Perennial Larkspur). The blooms are a delightful shade of blue with a white centre. The flowers are large and set closely on long spikes. The plants grow from 3 to 4 feet and bloom during June and late September.

**Dianthus.** The flowers are white or pink, and very suitable for a rock garden or border. The plants grow about 18 inches tall and bloom during May, June and July.

**Digitalis (Foxglove).** The beautiful white, pink and mottled flowers are borne on long spikes. The plants grow about 4 feet tall, making a wonderful appearance in the border. They do very well as cut flowers.

**Gaillardia Grandiflora** (Blanket Flower). The flowers are truly beautiful, having a crimson centre with yellow tips. They are very large and excellent for cutting. The plants grow about 2 feet tall and bloom during June, July and August.

**Hollyhock.** The plants grow to a height of 6 or 8 feet. They bloom all summer. The double varieties, Apple Blossom, Bright Rose, Cereze, Crimson, Newport Pink, Salomon Rose, White and Yellow. The single varieties in mixed colors only.

**Oriental Poppies.** The plants are 3 to 3½ feet tall. They bloom in May and September. Mixed colors.

Good strong plants of any of the Perennials listed, 3 for $1; $2.50 per dozen; $15 per 100. A motion of 12 plants each of 12 varieties, or a total of 144 plants, for $25.90.

Plants will be sent by express, customers paying the charges.

**GLADIOLI**

They are very easily grown and may be planted as early as the ground can be worked. For a longer blooming season, plant a few every two weeks up to July. A good garden soil is suitable for good results, prepared deeply. Plant about 4 inches deep, 5 to 6 inches apart in the rows, rows about 1 foot apart.

They are well suited for all gardens, may be planted in rows, masses or bunches three or four in the border, making a very attractive appearance however planted. As cut flowers they last a remarkably long time; every bud will develop into a beautiful flower.

PEONIES
Peonies prefer a heavy loam, but will do well in a good garden soil. It should be worked deep and well supplied with food material for three or four years' supply, but be very careful that the roots do not come in contact with the manure. The soil should be well drained and away from the shade of trees or buildings. The roots should be planted so that the eyes will have covering of two or three inches of soil. Peonies do better after being planted two or three years.
Peonies head the list of beautiful flowers. There are few more beautiful than a plant covered with a mass of blooms. They come into bloom for Memorial Day, and as cut flowers last remarkably well. Plant in the fall or spring in a well prepared bed. Cover the roots with not more than two inches of soil.
